

Scalability & Future Plan

Date	02 July 2026
Team ID	
Project Name	LaunchPad AI – Smart Business Idea Evaluation System
Maximum Marks	1 Mark

Current System Limitations

S.No	Limitation	Impact	Priority to Address
1	Uses Google Gemini AI and requires an internet connection.	The application cannot generate analysis without internet access.	High
2	Supports a limited number of users at a time.	Performance may decrease with many users.	Medium
3	Uses a local SQLite database.	Data storage is limited and not suitable for large-scale deployment.	Medium

Scalability Plan

S.No	Scalability Aspect	Current State	Proposed Upgrade / Solution
1	User Load	Supports a small number of users.	Deploy on cloud with auto-scaling support.
2	Database	Uses a local SQLite database.	Upgrade to PostgreSQL or MySQL for better scalability.
3	Performance	Single machine deployment.	Optimize model and use faster cloud servers.
4	Security	Basic input validation.	Add user authentication and secure API access.

Future Roadmap

Phase	Planned Feature / Enhancement	Target Timeline	Expected Impact
Phase 1	Add AI Chat Assistant for startup guidance.	1 month	Provide interactive business advice to users.
Phase 2	Generate Pitch Decks, Lean Canvas, and Business Model Canvas.	2 months	Help entrepreneurs prepare investor-ready documents.
Phase 3	Develop a mobile-friendly application with user login.	3 months	Improve accessibility and user experience.
Phase 4	Deploy on cloud with user authentication and PDF report generation.	4 months	Support more users and provide secure, professional access.
